## What Is A Spiritual Mind Treatment?

Spiritual Mind Treatment (SMT) is affirmative prayer. It is a movement of mind that creates a shift in thinking and feeling which, aligning with that which creates all things, brings into manifestation our desired result.

### **Why Use a Practitioner?**

Whenever you are experiencing dis-comfort, dis-orientation or dis-ease, physically, mentally, emotionally or spiritually, it's time to see a practitioner. Whether it's chronic or critical we encourage you to get the relief you are looking for. A practitioner has completed 2 years of certified Science of Mind classes and has completed an additional 3 year intensive study in Advanced Consciousness. They simply have successfully demonstrated tangible results using the creative power through formalized study and case studies and can help you clarify your thinking and thus aid you in aligning and manifesting what you desire.

### **What Does It Cost?**

"Sunday Express" treatment, when you reach out to a practitioner after service for a few minutes of time, is free of charge. If you want more time, consider making a personal appointment. Practitioners have spent at least 5 years of intensive study in this field and have been required to document proven results. The suggested fee for this service is \$35/per half hour or is left to the discretion of the individual practitioner.

### **How Do I Submit A Request?**

To make a request in writing, see our webpage titled Treatment Request Form and email it to [info@cslmidtown.org](mailto:info@cslmidtown.org), or, fill out the form on our website, <http://www.cslmidtown.org/treatment-prayer-request/>

Change your thinking...Change your life.
